TECHNICAL SKILLS

Programming Essentials: Git, Git Bash, VS Code

Front-End Development: HTML5, CSS3, Chrome DevTools, Bootstrap, Figma, GitHub

Back-End Development: JavaScript, MongoDB, Node.js, Express.js, Postman, RESTful APIs

Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Strategic Tools: Trello, SDLC, Cloud Services (AWS)

PROFESSIONAL EXPERIENCE

AI Trainer - Frontend Developer   Apr. 2025 – Jul. 2025
EBIT CO,. LTD

- Contributed front-end development expertise to help train large-scale generative AI models through project-based assessments and code reviews
- Created and answered technical prompts related to HTML, CSS, JavaScript, and frameworks such as React, Next.js, and Vue
- Evaluated and critiqued AI-generated UI/UX designs and frontend code for accessibility, responsiveness, and visual consistency
- Provided expert feedback to improve the quality and realism of AI-generated web interfaces and development patterns
- Applied deep understanding of design principles to assess usability, intuitive layout, and aesthetic alignment
- Worked asynchronously and independently in a fully remote environment, demonstrating strong communication and time management

Photos Annotator and Evaluator   Apr. 2024 – Oct. 2024
TELUS Digital AI Data Solutions

- Annotated and labeled photos and videos from personal phone library, following detailed guidelines provided by TELUS Digital
- Accurately labeled and categorized images and videos to ensure high-quality data for training machine learning models
- Ensured precise classification and tagging of images to support AI and machine learning model development
- Maintained consistency and attention to detail in annotations, adhering to project standards and instructions
- Managed workload efficiently to meet project deadlines while maintaining high data integrity
- Worked remotely, demonstrating ability to complete tasks independently and with efficiency

Production Personnel   Apr. 2020 – Sep. 2021
HyLife Foods LP

- Maintained adherence to food safety, hygiene, and sanitation protocols in a regulated environment
- Assisted in the efficient operation of production lines, ensuring quality standards were met
- Coordinated with supervisors, team leads, and team members to achieve daily goals, contributing to a productive and collaborative work environment

Technical Support Representative   Feb. 2019 – Oct. 2019
TopData Global IT Solutions

- Provided technical support through chat and email for resolving customer issues related to VPN software and network configurations
- Diagnosed and troubleshot VPN connectivity problems, ensuring secure remote access for users
- Managed a ticketing system to track and resolve customer inquiries, ensuring timely and efficient problem resolution
- Collaborated with technical teams to escalate complex issues and provided feedback to improve customer experience

Website Content Support   May 2018 – Feb. 2019
HotelsCombined.com

- Conducted research to gather relevant information for travel and accommodation listings
- Edited and updated website content to ensure accurate, user-friendly information for customers
- Collaborated with the content team to enhance website quality and optimize SEO

Encoder   Aug. 2016 – Sep. 2016

Alpha Aviation Group (AAG)
- Inputted and maintained accurate data in aviation systems and databases
- Verified and corrected data entries to ensure high levels of accuracy
- Demonstrated strong attention to detail and time management skills in a fast-paced, deadline-driven environment

Intern - Guidance Counselor's Office   Jun. 2016 – Jul. 2016

Pampanga High School
- Assisted the guidance counselor with daily administrative tasks, including managing student files and documentation
- Provided support during student counseling sessions by preparing materials and taking notes
- Helped organize and facilitate student programs, seminars, and orientations focused on personal development, mental health, and academic planning
- Assisted in data entry, filing, and tracking student progress reports
- Provided general office support, including answering inquiries and scheduling appointments for students and parents

PROJECTS

Blog-Sharing Web App
- Developed a full-stack blog-sharing web application using the MERN Stack with role-based access control
- Implemented CRUD operations for posts and comments with authenticated user management and admin privileges
- Built clean and responsive user interface with anonymous commenting functionality
- Deployed frontend on Vercel and backend on Render with RESTful API integration

Capstone 1: Static Portfolio Website *(Zuitt Coding Bootcamp)*
- Designed and developed a mobile-friendly personal portfolio with custom CSS animations and clean visual layout
- Created project gallery and interactive sections using Bootstrap grid system and responsive breakpoints

Capstone 2: RESTful E-Commerce API *(Zuitt Coding Bootcamp)*
- Developed secure user authentication with JWT and password encryption using Bcrypt
- Built product and order endpoints with full CRUD functionality and database validation using Mongoose
- Tested using Postman; deployed to Render for production

Capstone 3: Full-Stack E-Commerce Platform (MERN) *(Zuitt Coding Bootcamp)*
- Created e-commerce web app with React frontend, Node/Express backend, and MongoDB database
- Implemented user registration/login, product browsing, and cart functionality
- Deployed frontend on Vercel and backend on Render

Airline Booking System *(Zuitt Coding Bootcamp)*
- Developed a proof-of-concept airline booking platform with flight search, reservation management, and secure payment processing
- Built responsive front-end user interface using modern web technologies with intuitive booking workflow
- Implemented secure back-end services with user authentication, booking management, and data validation
- Collaborated with team members to integrate front-end and back-end services, ensuring seamless data synchronization
- Focused on user experience optimization and real-time data updates throughout the booking process

Emoji Frenzy Game
- Built arcade-style game with event-driven logic, animated sprites, and combo scoring system
- Used vanilla JavaScript, CSS transitions, and localStorage for persistent high scores

Simple Bible Verse App
- Built Bible Verse of the Day app using React.js with real-time updates via Our Manna API
- Created clean, responsive interface with error handling and deployment on Vercel

Simple Calculator
- Built a functional calculator app with real-time math operations and input validation
- Deployed on GitHub Pages for easy access and demonstration

EDUCATION

University of the Philippines
Bachelor's Degree in Applied Psychology   *2013 – 2017*

Zuitt Coding Bootcamp
Tech Career Program (Full-Stack Web Development in JavaScript)   *Jul. 2024 – Sep. 2024*

CERTIFICATES

Zuitt Coding Bootcamp
Introduction to OOP with JavaScript (Short Course)   *Oct. 2024*

Advanced OOP with JavaScript (Short Course)   *Oct. 2024*

AWS Fundamentals (Short Course)   *Mar. 2025*

AWS Serverless (Short Course)   *Mar. 2025*

AWS Managed Services (Short Course)   *Apr. 2025*

Cisco
JavaScript Essentials 1   *Aug. 2025*

JavaScript Essentials 2   *Aug. 2025*
